The Washington State Chapter of URISA (WAURISA) is an IRS 501 (c) (6), not for profit, state wide professional association. WAURISA is organized for the purpose of recognizing, supporting and encouraging broad professional growth, education, communication, technical development, and service to its members and others in the field of geospatial information technology. The chapter provides broad support, encouragement and recognition for government, academic, and private development and dissemination of accurate and complete spatial data, relevant software, and geospatial products. Respecting the development of the geospatial industry as a whole, the chapter is and shall remain a platform neutral forum with respect to operating systems, geospatial software products and vendors. WAURISA welcomes and supports participation from the public and private sector equally. The Chapter supports and promotes the GIS Code of Ethics as approved by the URISA Board of Directors.
