The Washington State Chapter of
The Urban & Regional Information Systems Association

Serving Washington's GIS Community

2006 Washington GIS Conference

May 8-10, 2006

Greater Tacoma Convention & Trade Center, Tacoma, WA

2006 POSTER & MAP CONTEST

**Give your map or poster the attention it deserves!
Here is your chance to brag about your project!**

Come; present your map or poster. Show your colleagues all the neat projects you have been doing! Earn great prizes! Earn points toward GISP certification!

This year's 2 categories are:

- Best Map (Professional and Student)
- Best Poster (Professional and Student)

All subjects are welcome as long as the entry contributes to the GIS profession. Entrants are limited to only entering 1 entry in a single category. In addition, all entries are automatically entered into the People's Choice category.

Students are especially encouraged to enter. There will be separate judging and awards for student and professional entries.

Participants will be given a certificate of participation and will earn points toward GISP certification.

To enter, please contact Amanda Taub by e-mail at ataub@co.douglas.wa.us. Check out www.waurisa.org for the Submittal Requirements page. Please send an abstract of the poster to abstract@waurisa.org. Surprise entries will be displayed as space allows, but will not be judged.
